

SAUGAT ADHIKARI

ABOUT

I was always curious about how computers work, how those software and websites are built and how I could also build something like that so I decided to learn to code. I mainly focused on building scalable & maintainable web applications using JS and React. I am comfortable working with Backend Technologies using Node.js.

EDUCATION

School Leaving Certificate

Jyoti English Boarding School
2005 – 2017

High School Certificate

Laxmi Secondary school
2017 – 2019

Bsc.CSIT (TU)

Mechi Multiple Campus
2019 – Sep 2024(expected)

TRAINING/CERTIFICATIONS

Cyber Security and Ethical hacking (Workshop)

Mechi Multiple campus
April 2021

React.js and GitHub (Workshop)

Mechi multiple Campus
July 2022

WORK EXPERIENCE

Computer Instructor

Center for Information Technology (CIT)
Nov 2021 – Dec 2022

As a Computer Instructor, I taught foundational computer skills through a hands-on, interactive approach, raising an environment where students applied theory in practical scenarios to boost their problem-solving abilities.

Programming Instructor

Smart Computer Institute
Dec 2022-Jun 2023

As a Programming Instructor, I adeptly taught essential languages like C, C++, and JavaScript, using an interactive and practical approach to ensure effective learning and application of programming concepts.

SKILLS

Technical Skills:

- Web Development: React.js, JavaScript, HTML/CSS.
- Basic knowledge: C, C++, Node.js, python.
- Others: Docker, Linux, Git and DevOps.

Soft Skills:

- Ability to quickly adapt to new and evolving technologies.
- Excellent verbal and written communication.
- Time management.
